Pupils go to school from Monday till Friday. Lots of pupils walk to school. School starts at 9 o'clock. Most schools have lessons in the morning and three lessons in the afternoon. Homework takes an hour and a half. School finishes at 4 o'clock.

I don't like our school uniform. There are many schools without uniforms now. Some schools have got a uniform, but pupils don't have to wear it. Why do we have to wear a uniform? It is not modern and the colours are terrible.

I can't go home for lunch. I eat at school. I don't like lunches at school. I like to have a sandwich. But where can I eat it? At my friend's school pupils have got a sandwich room. They can eat their sandwiches there. It's a very good idea.

I like our school library because it is quiet. There are a lot of interesting books in it. But we can't do our homework in the library. Why? I like to do my homework there rather than at home.

I like the teachers and the classrooms. Perhaps the lessons are too long. But in general, I like my school.

The National Sport of England

Football is the most popular sport in England. In fact, a lot of English people say it is their national sport.

English people have played football for a very long time. However, the game didn't have any real rules until the 19th century. In 1815, Eton College created rules to make the game less violent and later, in 1848, Cambridge university made many of the modern rules. Football quickly became as popular as other games such as cricket.

Today, there are thousands of football clubs in England, and professional clubs, such as Arsenal, Liverpool and Manchester United are famous all over the world.

Football has become part of the cultural life in England and hundreds of thousands of fans support their favourite teams in stadiums around the country every weekend. Many English children have football lessons at school. And famous footballers, such as David Beckham and Michael Owen have become role models for a lot of these children.

46. Football rules were created in the 19th century.
47. Arsenal is unknown football team.
48. The English like football.
49. Football fans often go to stadiums.
50. Cricket is one of popular game in England. (5*4=15)

A symbol of Paris

Being one of the most popular sites in the world, the Eiffel Tower attracts hundreds of thousands of tourists every year. In fact, the structure, received its two hundredth millionth guest in 2002. Located on the Champs de Mars by the Seine River, visitors can make their way to the top and admire the breath taking view of Paris.

The Tower was the inspiration of French engineer Gustave Eiffel. A very famous personality in his time, Eiffel had also done important work for the internal structure of another famous monument, the Statue of Liberty in the USA. Work on the Eiffel Tower began in 1887 and lasted until 1889, when the building was opened to the public during the Paris World Exposition. Until 1930 and the construction of the Chrysler Building in New York, the Tower remained the highest structure in the world.

Many people, especially artists, criticized the structure saying that this distasteful structure did not fit in with the beauty of Paris. One of these critics was the French writer Guy de Maupassant, who ate at one of the tower's restaurants almost every day, because it was the only place in Paris from where the tower was not visible, and so he wouldn't have to see it!

A lot of effort and money go into keeping the Tower in good condition. Every seven years, sixty metric tons of paint are used to repaint it. Different shades of the same colour are used on the top and darker ones on the bottom in order for the building to have an unvarying appearance.

6. Over two million people have climbed the Eiffel Tower.

Задание 3. Прочитайте короткие тексты. Выберите вариант передающий, основное содержание текста наилучшим образом. (2 балла)

- A. The Solar System
- B. The Universe
- C. The Earth's satellite

The planet we live on is called Earth. Earth goes around a star called the Sun, and as such classifies as a planet.

The Sun and everything that circles it form together a system called the solar system (solar = of the sun). In our solar system, there are additional seven planets, and dwarf planets (planetary objects which do not qualify as planets).

Each of these planets takes a different amount of time to travel around the Sun. For the Earth, this journey is 365.25 days long, but for a faraway planet like Neptune, it takes 165 years. There are smaller objects which do not circle the Sun, but around these planets. They are called satellites, or moons, just like Earth's only natural satellite.

Задание 4. Прочитайте текст. Какое из утверждений, приведённых ниже, НЕ соответствует данному тексту? (3 балла)

- A. Dogs were the first animals domesticated by people.
- B. The smallest dog can be even smaller than a cat.
- C. Wolves and dogs have nothing in common.

Dogs have been around humans for many years – they were the first species to be domesticated. For over 1000 years, humans have been breeding dogs to have specific physical attributes or behaviors.

This is why today there are more than 330 different breeds of dogs. Some are even smaller than cats, while others, like the English Mastiff, are much bigger than humans.

The grey wolf is the closest living relative of dogs. Some breeds like the Husky still look like wolves. At first, humans' leftover food attracted wolves to interact with humans. Soon after, wolves started traveling along with the nomads.
